About ARM's Cell & Gene Therapy Investor Day

This one-day program, organized by the Alliance for Regenerative Medicine (ARM) and co-hosted by Chardan, PNC Healthcare, Raymond James and Solebury Trout, will provide institutional, strategic and venture investors with unique insights into financing opportunities for cell and gene therapy-based treatment and tools. The event includes clinical and commercial experts on-hand to address specific questions regarding the outlook for these products, and how this sector is impacting key therapeutic areas including oncology, ophthalmology, rare disease, diabetes, cardiovascular disease, wound healing and tissue repair and neurodegenerative diseases. The program includes talks by key opinion leaders in the industry, analysts following the sector as well as presentations by more than 30 leading companies from across the globe.

About BrainStorm Cell Therapeutics Inc.

BrainStorm Cell Therapeutics Inc. is a biotechnology company engaged in the development of first-of-its-kind adult stem cell therapies derived from autologous bone marrow cells for the treatment of neurodegenerative diseases. The Company holds the rights to develop and commercialize its NurOwn® technology through an exclusive, worldwide licensing agreement with Ramot, the technology transfer company of Tel Aviv University. NurOwn has been administered to approximately 75 patients with ALS in clinical trials conducted in the United States and Israel. In a randomized, double-blind, placebo-controlled clinical trial conducted in the U. S., a clinically meaningful benefit was demonstrated by higher response to NurOwn compared with placebo. For more information, visit the company's website at www.brainstorm-cell.com.
