

BrainStorm Cell Therapeutics to Participate in Movement Disorder Panel at the Neurotech Investing and Partnering Conference

NEW YORK and PETACH TIKVAH, Israel, May 1, 2018 /PRNewswire/ -- BrainStorm Cell Therapeutics Inc. (NASDAQ: BCLI), a leading developer of adult stem cell therapies for neurodegenerative diseases, today announced that Ralph Kern, M.D., MHSc, Chief Operating Officer and Chief Medical Officer, will be a panelist at the 13th Annual Neurotech Investing & Partnering Conference, taking place May 1-2 in Boston, Massachusetts.

Neurotech Panel Presentation Details:

Date: Wednesday, May 2
Time: 10:40am Eastern Time
Panel Title: Parkinson's and Other Movement Disorders
Location: Renaissance Waterfront Hotel, Boston, MA

Panel Description:

Current treatments for movement disorders can improve functioning, but suffer from side effects and "off" period, especially as the disease progresses. A number of novel pipeline pharmaceuticals and devices seek to address these issues. This session will explore how disease modifying treatments alter the course of movement disorders, and how companion diagnostics can be leveraged to provide the most optimal outcomes for patients. The panel will be moderated by Julie G. Pilitsis, MD, Ph.D., Chair of Department of Neuroscience & Experimental Therapeutics, Professor of Neurosurgery, Albany Medical College.

About the Neurotech Investing & Partnering Conference

Now in its 13th year, the [Neurotech Investing & Partnering Conference](#) is the premier business and investment conference for commercial neuroscience including pharmaceuticals, medical devices, diagnostics and neurosoftware. The conference features keynotes, investor panels, cutting edge company presentations, and panel discussions on a comprehensive selection of neurotech topics. The goal is to provide a highly-interactive environment where cutting edge technologies, devices, drugs and therapies inspire new collaborations and secure financing to navigate the development path and ultimately reach patients.

Organized by the Neurotechnology Industry Organization and Cambridge Innovation Institute, the 13th annual conference will be held May 1-2, 2018 at the Renaissance Waterfront Hotel in Boston, MA.

The Neurotech Investing and Partnering Conference is a global forum where investors, executives, entrepreneurs, scientists and others involved in the development of new treatments and diagnostics for the brain and nervous system come together to shape the future of their organization and the industry.

This market-defining conference features keynotes on the state of the neurotech industry, cutting edge company presentations, leading translational research projects and panel discussions on a comprehensive selection of neurotech topics.

About BrainStorm Cell Therapeutics Inc.

BrainStorm Cell Therapeutics Inc. is a biotechnology company engaged in the development of first-of-its-kind adult stem cell therapies derived from autologous bone marrow cells for the treatment of neurodegenerative diseases. The Company holds the rights to develop and commercialize its NurOwn® technology through an exclusive, worldwide licensing agreement with Ramot, the technology transfer company of Tel Aviv University. NurOwn® has been administered to approximately 70 patients with ALS in clinical trials conducted in the United States and Israel. In a randomized, double blind, placebo-controlled clinical trial conducted in the U. S., a clinically meaningful benefit was demonstrated by higher response to NurOwn® compared with placebo.
