

BrainStorm-Cell Therapeutics to Announce Fourth Quarter and Fiscal Year 2020 Financial Results and Provide a Corporate Update

NEW YORK, January 28, 2021 -- BrainStorm-Cell Therapeutics Inc. (NASDAQ: BCLI), a leader in developing innovative autologous cellular therapies for highly debilitating neurodegenerative diseases, announced today that the Company will hold a conference call to update shareholders on financial results for the fourth quarter and year ended December 31, 2020, and provide a corporate update, at 8:00 a.m., Eastern Time, on Thursday, February 4, 2021.

BrainStorm's CEO, Chaim Lebovits, will present a corporate update, after which, participant questions will be answered. Joining Mr. Lebovits to answer investment community questions will be Ralph Kern, MD, MHSc, President and Chief Medical Officer, Stacy Lindborg, PhD, Executive Vice President and Global Head of Clinical Research, David Setboun, PharmD, MBA, Executive Vice President and Chief Operating Officer, Preetam Shah, PhD, MBA, Executive Vice President and Chief Financial Officer.

Participants are encouraged to submit their questions prior to the call by sending them to q@brainstorm-cell.com. Questions should be submitted by 5:00 p.m. EDT, Wednesday, February 3, 2021.

The investment community may participate in the conference call by dialing the following numbers:

Participant Numbers:

Toll Free: 877-407-9205
International: 201-689-8054
Webcast URL: <https://cutt.ly/vjBvkTp>

Those interested in listening to the conference call live via the internet may do so by visiting the "Investors & Media" page of BrainStorm's website at www.ir.brainstorm-cell.com and clicking on the conference call link.

Those that wish to listen to the replay of the conference call can do so by dialing the numbers below. The replay will be available for 14 days.

Replay Number:

Toll Free: 877-481-4010
International: 919-882-2331
Replay Passcode: 39495

About NurOwn®

The NurOwn® technology platform (autologous MSC-NTF cells) represents a promising investigational therapeutic approach to targeting disease pathways important in neurodegenerative disorders. MSC-NTF cells are produced from autologous, bone marrow-derived mesenchymal stem cells (MSCs) that have been expanded and differentiated ex vivo. MSCs are converted into MSC-NTF cells by growing them under patented conditions that induce the cells to secrete high levels of neurotrophic factors (NTFs). Autologous MSC-NTF cells can effectively deliver multiple NTFs and immunomodulatory cytokines directly to the site of damage to elicit a desired biological effect and ultimately slow or stabilize disease progression.

About BrainStorm Cell Therapeutics Inc.

BrainStorm Cell Therapeutics Inc. is a leading developer of innovative autologous adult stem cell therapeutics for debilitating neurodegenerative diseases. The Company holds the rights to clinical development and commercialization of the NurOwn® technology platform used to produce autologous MSC-NTF cells through an exclusive, worldwide licensing agreement. Autologous MSC-NTF cells have received Orphan Drug status designation from the U.S. Food and Drug Administration (FDA) and the European Medicines Agency (EMA) for the treatment of amyotrophic lateral sclerosis (ALS). BrainStorm has completed a phase 3 pivotal trial in ALS (NCT03280056); this trial investigated the safety and efficacy of repeat-administration of autologous MSC-NTF cells and was supported by a grant from the California Institute for Regenerative Medicine (CIRM CLIN2-0989). BrainStorm is in active discussions with the FDA to identify regulatory pathways that may support NurOwn's approval in ALS. BrainStorm is also conducting an FDA-approved phase 2 open-label multicenter trial in progressive multiple sclerosis (MS). The phase 2 study of autologous MSC-NTF cells in patients with progressive MS (NCT03799718) completed dosing in December 2020, and topline results are expected by the end of the first quarter 2021.
